

## When you receive the xml file, save it to a folder on your HDD. Open Encryption Wizard, click tools, Import keychain.

Encryption Wizard - Government FIPS Edition					
File Options Tools Help					
	Create Keychain Open Keychain				
	Import Keychain				
	Manage Load keychain from previously exported XML file				
	Platform Support: MS-Windows				
	Generate Passphrase G Generate Public/Private Cert Export CAC/PIV certificate Configure Smart Card Libraries				
	Round Contraction				
Encrypt Archive Decrypt Expand					
0 files (0 bytes), 0 selected					

## Locate the folder with the XML file. Select the keychain XML file & click open.

#### And you get this screen

#### Click File, Save As

Navigate to the folder where you want to save your keychain, IF you want to be prompted to open your keychain each time you open EW, Then save it to the folder that holds the EW.jar file, If not make a new folder (ie: KEYS) and save there
